

# SEE THE EFFECT, FEEL THE DIFFERENCE

- Sculptra has been used for decades to reduce key signs of aging in the face by restoring skin integrity, stimulating the production of collagen and improving the quality of the elastin<sup>1-7</sup>
- Its unique PLLA-SCA™ formulation has a comprehensive regenerative effect across all three layers of the skin<sup>1,5-12</sup>
- It is the first proven regenerative biostimulator that delivers long-lasting results for more than two years, addressing a variety of skin concerns, including:<sup>5-10,13,14</sup>

Studies show that Sculptra improves skin quality (including improvement in cellulite appearance), firmness, lift, projection, and contour:

## UNLOCK A FIRM, SCULPTED BODY WITH SCULPTRA – THE FIRST PROVEN REGENERATIVE BIOSTIMULATOR

- People's aesthetic needs are evolving – it is no longer just about rejuvenation and decreasing the signs of aging in the face. Demand has been growing for solutions that go beyond the face and age-related concerns and instead elevate body empowerment at every stage of life<sup>15,16</sup>
- While Sculptra has long been trusted for its ability to achieve natural-looking results in the face, it has also been clinically proven to work on and enhance areas of the body including the gluteal area (including the buttocks), back of thighs, décolletage, and upper arms<sup>13,17-20</sup>
- Sculptra has shown progressive improvements in key body areas as early as one month after treatment.<sup>20,21</sup>

## RESULTS BACKED BY PATIENTS AND AESTHETIC PRACTITIONERS

Don't just take our word for it... here's what the patients had to say about their results:

*"Sculptra is a treatment I deeply trust – not only for its strong clinical evidence, but also because of the consistent results and patient satisfaction I experience in my daily practice. As more patients seek aesthetic improvements beyond the face, I'm truly excited to use this unique biostimulator to refine body contours, enhance skin quality, and restore confidence in a natural, lasting way."*

**-Flavia Radke, MD, Plastic Surgeon, VITA AESTHETICA, Germany\***

Sculptra offers patients the opportunity to achieve their desired look across their face and body, harnessing proven regenerative science, reinforcing Galderma's commitment to providing aesthetic practitioners with holistic, patient-centric solutions.
