Invitation to the Annual General Meeting of ABB Ltd, Zurich

THURSDAY, MARCH 24, 2022,
AT 10:00 A.M.

HALLE 550, BIRCHSTRASSE 150,

Invitation

Dear Shareholders,

On behalf of the Board of Directors, I am pleased to invite you to vote on our proposals at ABB's Annual General Meeting 2022. Despite the recent relaxation of COVID-19 protection measures, we decided to proceed with a virtual annual general meeting without personal attendance of shareholders, in the interest of everybody's health and safety. We thank you for your understanding and offer you – in addition to voting via our independent proxy – the possibility to submit questions ahead of the meeting. Our virtual AGM will be broadcast live on our website (see page 11).

2021 was another turbulent year, due to continued outbreaks of COVID-19. However, our high level of preparedness helped us protect our people and keep our operations running. Strong demand boosted our order and revenue growth, but supply-chain disruptions caused delays in deliveries to customers in the second half of the year. Overall, we are pleased with ABB's financial performance, which has improved significantly compared with pre-pandemic times.

Against that backdrop, we continued to transform ABB by moving accountability

to our Divisions, increasing efficiency, and making our operations safer and more sustainable. In line with our strategy of active portfolio management, we plan to spin off our Turbocharging Division. In that event, we would invite shareholders to an extraordinary general meeting to seek their approval. We are also moving ahead with efforts to separately list our E-mobility business and we aim to complete this during the second quarter. ABB would retain a majority shareholding in the future listed entity.

With these achievements and steps, we are living up to our Purpose of creating superior, sustainable value, and strengthening our focus on electrification and automation, which are key technologies to reduce emissions and enable a more sustainable future.

Thank you for your continued trust and support.

Yours sincerely,

Peter Voser
Chairman of the Board of Directors

5. Capital reduction through cancellation of shares repurchased under the share buyback programs 2020 and 2021

Proposal

The Board of Directors **proposes**:

- a) to reduce the share capital of CHF 246,377,791.68 by CHF 10,608,382.68 to CHF 235,769,409.00 by way of cancellation of 88,403,189 shares with a nominal value of CHF 0.12 each which were bought back by the Company under the share buyback programs announced in July 2020 and April 2021;
- b) to confirm as a result of the report of the auditors that the claims of the creditors are fully covered notwithstanding the capital reduction;
- c) to amend article 4 para. 1 of the Articles of Incorporation according to the following wording as per the date of the entry of the capital reduction in the commercial register (the proposed amendments are underlined):

Article 4 para. 1

Explanation

The proposed number of 88,403,189 shares to be cancelled is composed as follows:

At the Annual General Meeting in 2021, the shareholders approved the cancellation of 115,000,000 shares. This is to ask the shareholders to approve the cancellation of the remaining 13,620,589 shares.
- Under the share buyback program announced in April 2021 and running until March 23, 2022, at the latest, ABB Ltd further repurchased as per February 15, 2022, a total of 74,782,600 shares for cancellation. This is to ask the shareholders to approve the cancellation of these shares. It is expected that the cancellation of the remaining shares repurchased under this share buyback program will be proposed to the Annual General Meeting 2023.

¹ This assumes that no new shares issued out of the authorized or contingent share capital of the Company will be registered in the commercial register between the date of the invitation to the Annual General Meeting and the date of entry of the capital reduction in the commercial register. If such new shares are registered during this time period, the numbers are to be amended accordingly.

Annex to Agenda Item 6

(Binding votes on the compensation of the Board of Directors and the Executive Committee)

Introduction

At the 2022 Annual General Meeting of ABB Ltd, there will be separate binding votes on the maximum aggregate compensation of the Board of Directors (Board) for its 2022–2023 term of office

and on the maximum aggregate compensation of the Executive Committee (EC) for 2023. There will also be a non-binding vote on the 2021 Compensation Report.

Overview of compensation votes at the 2022 Annual General Meeting

6.1. Binding vote on the maximum aggregate amount of compensation of the Board of Directors for the next term of office, i. e. from the 2022 Annual General Meeting to the 2023 Annual General Meeting

The Board is proposing to maintain the same number of Board members for the upcoming term of office. Compensation for individual Board members is also planned to remain at the same level as in the previous period.

The Board proposes that shareholders approve a maximum aggregate compensation of the Board of CHF 4,400,000.

The compensation of the members of the Board consists only of fixed compensation and the Board members are required to take at least half of their compensation in the form of ABB Ltd shares.

The compensation principles for the members of the Board are described in article 33 of the Articles of Incorporation. Based on the proposals of the Compensation Committee, the Board determines the compensation of its members taking into account each member's position and responsibilities.

Additional information regarding compensation of the Board is available in the 2021 Compensation Report, which can be found in the Annual Report.

6.2. Binding vote on the maximum aggregate amount of compensation of the Executive Committee for the following financial year, i. e. 2023

ABB has progressively increased the performance orientation of its compensation system while better aligning it to the Company's strategy, taking into consideration inputs from shareholders and other stakeholders. Further information regarding Executive Committee (EC) compensation, including the proposed changes for 2022, is available in the 2021 Compensation Report, which can be found in the Annual Report.

The main factors impacting changes in aggregate compensation from year to year are the number of EC members, each member's target compensation as well as Company and individual performance during the relevant performance cycles.

Target compensation would be reached if EC members meet the performance criteria for a 100 percent award under the short-term variable compensation component and a 100 percent reference grant size under the long-term incentive plan.

The proposed maximum aggregate EC compensation for 2023 of CHF 45,900,000 would only be reached if EC members meet the performance criteria for a 150 percent award under the short-term incentive (STI) plan and a maximum vesting of 200 percent under the long-term

incentive (LTI) plan. Over the last three years, this level of STI award and LTI vesting for all EC members, on an aggregate basis, has not occurred at ABB.

As shown in the chart below, the actual compensation for 2021 for current EC members was less than the approved maximum aggregate compensation for 2021. The proposed maximum aggregate EC compensation for 2023 is CHF 5,900,000 higher than the amount proposed and approved for 2022. This increase in maximum aggregate compensation for 2023 is mainly the result of the associated costs

related to the 2020 LTIP, vesting in 2023, influenced by:

- a) the increased number of shares subject to vesting compared to prior years (see chart below),
- b) the current, solid performance of the Company against its earnings per share targets and total shareholder return peer group, and
- c) the strong share price development since the time of grant with a reference price of CHF 19.36

rather than any structural increase to EC compensation.

The chart below shows the expected development of aggregate EC compensation from 2019 to 2023.

Overview of considerations in calculation of maximum aggregate EC compensation¹

	2019	2020	2021			2022	2023
Aggregate EC compensation in CHF (millions)	52.0	55.5	39.2	35.8	39.5	40.0	45.9
Assumptions	Maximum (approved at 2018 AGM)	Maximum (approved at 2019 AGM)	Actual	Target	Maximum (approved at 2020 AGM)	Maximum (approved at 2021 AGM)	Maximum (proposed at 2022 AGM)
STI award percentage	150%	150%	139% ²	100%	150%	150%	150%
Adjustment of LTIP grant size	+12.5%	+12.5%	0%	0%	+12.5%	+12.5%	n.a.
Number of LTIP shares vested or potentially vesting in year ³	532,674	266,104	n.a.	n.a.	147,979	220,561	354,869
Number of EC members	11	12	10	10	9	9	9

¹ For full description, see Compensation Report 2021, which can be found in the Annual Report.

² Outcome without the allocation of former EC members, but including previous CHRO. For full description, see Compensation Report 2021, which can be found in the Annual Report.

³ For example, 354,869 shares were granted in 2020 that potentially vest in 2023, subject to performance conditions.
